## WHEELING PARK.

Will Open for the Season To-morrow Afternoon.

## A GRAND CONCERT PROGRAMME.

Will be rendered by the Opera House Brass Band—Many Improvements Made at this Popular Resort—Some Excellent Attractions Booked for Appearances at the Casino, Including Two Weeks of Opera—This Last will be a Great Favorite to this Year, with its Unique Bicycle Heat.

With the advent of opening buds and the development of foliage comes the beginning of the season at Wheeling Park, something that is always looked forward to by the patrons of that incomparable resort with the liveliest anticipations of enjoyment.

To-morrow, Easter Sunday, the park will be thrown open for the season, and the event will be signalized by the usual concert by the entire strength of the Opera House brass band, and for which occasion a programme of unusual attractiveness and excellence has been arranged. The concert begins at the park immediately upon the arrival of the 2 o'clock motor, and the band will continue to waken the echoes with "a concord of sweet sounds" until 6 o'clock.

Col. August Rolf, the superintendent of the park, ably seconded by his assistant, Major Ernest Kreiger, have been busy during the past week getting the grounds and buildings in order. Although working under many disadvantages, owing to the dull and erratic character of the weather, the walks and drives are in excellent shape. Most of the foliage of the park is out, and presents a most cheerful and inviting appearance, taken in connection with the lawns and slopes clad in velvet verdure. But with these characteristics the patrons are already familiar, and which have been extolled every recurring season, and which have been the enthusiastic admiration of all strangers who have tarried within the gates.

The lake will be a great attraction this season. It is a handsome sheet of water, surrounded by grassy banks that are reflected in its clear mirror-like surface. A popular amusement will be circling this body of water on the bicycle boat, which was only secured a few weeks ago. The craft is so constructed that it cannot upset. It is propelled similar to a bicycle, and is steered by the person who manipulates the pedals, and who is concealed in the image of a swan.

The amusement features this season will be quite popular, many first class attractions having already been booked. The first event on the card will be the annual concert of the Opera House orchestra, May 10. The programme will contain many gems. The orchestra will be augmented by the addition of eleven or twelve soloists of the Pittsburgh symphony orchestra, and the soloists will number talented local and foreign artists.

Following the orchestra a comic opera company of acknowledged ability and reputation will begin a two weeks' engagement on June 7, one of the principal attractions being Miss Villa Knox, who scored such a success last year at the Casino. The repertoire of the troupe includes such standard and popular works as "The Student," "Amor," "Carmen," "The Italian," "Black Hussar" and other equally pleasing operas. The troupe is now playing a six weeks' engagement in Baltimore, and will come direct from that city here. After leaving Wheeling they play a two weeks' engagement in Washington City.

On June 9 the A. O. U. W. will hold their annual outing at the park, for which they have already made extensive preparations. For this date the order has secured the services of the opera troupe mentioned above to give two performances, matinee and evening, at the Casino for their benefit.

One of the original attractions will be K. K. K.'s "Imperial Japanese Troupe," which opens a week's engagement on May 17. This organization has been spoken of very highly wherever it has appeared.

Arrangements have also been made for the appearance for one night of the celebrated Innes' military band, which will pass through Wheeling on its way to Nashville, where it has been secured to play at the Tennessee Centennial and Exposition. This is the same band that created a big impression at the Pittsburgh Exposition last year. It is composed of about seventy performers.

The Fulton schools have secured the park for a picnic June 7, and the following day the Wheeling Retail Grocers' Protective Association will give their annual outing. As the day before a state convention of grocers will be held in this city, the park will contain a large and jolly crowd on June 17. Besides it will be a resort for the home grocers will take great pride in showing to visitors from all over the state.

All that is in doubt for to-morrow will be the weather, and the hope is indulged that it will play no pranks. In case the weather is at all unpleasant the Casino will be used for the concert.

That Wheeling Park should receive the encouragement and support of the people of this city does not admit of discussion. It is not run for the purpose or expectation of declaring large dividends for its stockholders. The expense of keeping up and caring for such a large tract of land, to say nothing of annual repairs to buildings, and the number of employees required to keep the park in order is scarcely conceivable to those who know nothing of the labor required for its preservation. To Mr. Anton Heymann's large liberality and public spirit Wheeling is mainly indebted for saving the grounds from the hands of vandals and speculators. Since the original purchase many acres have been added to the park, and many thousands of dollars have been expended in adding the Casino, lighting the grounds with electricity and building a water works. It has been the policy of its management to add something every year to the attractiveness of the park. This enterprise and the pride they take in making it one of the sights that Wheelingites can be proud of is worthy of the loyal support of the people of the city.

## TOO MUCH MARRIED.

James Minder will soon realize the folly of having two wives. Marshal Bahra, of Bellaire, went to Washington, Pa., yesterday with Mrs. Carrie Minder, who was formerly Miss Carrie Miller, and who still lives with her parents west of Bridgeport. She was married to James Minder, of Bellaire, in February, 1892, and has the marriage certificate in her possession. Minder left her during the following summer and came back to Bellaire, where he lived with Mrs. Nicholson, and people supposed they were married. He left there last fall and went to Washington, where he worked for oil men, and last February he married Miss Laura A. Stiles in that town under the assumed name of Murphy. His second wife's father discovered that something was wrong and hunted up the matter with such persistency that he unearthed the above facts, and then had the fellow arrested. Both wives, each armed with a certificate of marriage, appeared in court against him yesterday evening, and the result can easily be guessed.

## LOCAL BREVITIES.

Matters of Minor Moment in and About the City.

On Sunday at the Chapline Street M. E. church, the pastor, Rev. William Anderson, will preach at 10:30 a. m., an Easter sermon and at 7:30 p. m. a special Easter programme has been prepared.

Arrests made by the police yesterday were as follows: A. L. Stoddard, disorderly, and Louis Stroder, disorderly, by Walker; Louis Ryst, disorderly, by Holmes, and Ed Marsh, disorderly, by Clemens.

At the Thomson M. E. church to-morrow, Rev. C. E. Clark, pastor, the Rev. Dr. Curtis, of Cincinnati, and one of the most eloquent divines in the church, will preach at both morning and evening services. The church will be handsomely decorated, and specially prepared Easter music will be rendered.

## ABOUT PEOPLE.

Strangers in the City and Wheeling Folks Abroad.

Dr. Ernest A. Bullard, a young dentist with a bright future, has opened an office at his home on the island, No. 44 South York street, with office hours from 7 to 8, 12 to 1, and 5 to 8 in the evenings.

Mr. John R. Dunlap, formerly of this city, is pushing his Engineering Magazine with commendable enterprise. Having become an authority in engineering matters in this country, he is about to invade England. He calls for that country on the 24th of this month for the purpose of establishing a distinctly British and European edition of his publication. It is no doubt but that his venture will be crowned with success.

## A HORSELESS CARRIAGE.

Is One of the Features of the Robinson-Franklin Circus.

The combined management of the John Robinson and Franklin Brothers' Shows attended the recent speed contest of "Horseless Carriages" at Chicago, and wisely concluded to secure the most thoroughly finished and speedy of the numerous new vehicles there tested. Other circus managers were also there, and all bid for the "winner." The well-known courage and unlimited financial resources of John Robinson and Franklin Brothers, together with that resolute determination to at all times secure the best in all branches, prompted these well-known managers to outbid all others and they did secure the most wonderful achievement in science, the "Motorcycle"—the mode of conveyance in the twentieth century—a mechanical contrivance that can run sixty miles an hour over ordinary country roads. It can cover a hundred miles in an hour on a speed course, and the cost of running this wonderful "Horseless Carriage" one hundred miles is but sixty cents (60c). It will be seen daily in the Free Trade of these great shows and during the afternoon and evening performances will be put to trial tests of speed on the immense hippodrome track. No other circus management has ever dared to put a form in a "feature" exhibition of which will be without cost. Of course this is but one of the many features of these combined great shows, that will be seen in Wheeling, on Friday, April 30.

DO not be hoodwinked. Use no "just as good." Salvation Oil is what you want when in need of a good liniment.

## C. D. Keany's Easter Pictures.

## THE NEW WAY.

A GREAT SUCCESS FOR FITTING ALL KINDS OF EYES WITH GLASSES.

Our new scientific method of examining the eyes and fitting glasses without putting the eye in danger and making the patient blind for a week, or having them sit for hours looking at charts and trying to fit themselves until they become so bewildered they cannot tell what they can see. We fit the eyes for examination without depending on the patient and know when they are fitted correctly.

Consultation and examination free.
